

CALTRANS CONSTRUCTION UPDATE

District 12 – Orange County

March 20, 2009

Dear Resident:

The California Department of Transportation (Caltrans) has begun a \$6 million roadway rehabilitation project on SR 605, 405, and 22 in the cities of Seal Beach, Los Alamitos, Long Beach, and Rossmoor.

This project will replace and grind existing roadway pavement, reconstruct the Katella onramp to the northbound (NB) 605, and install guardrail at various locations. The work is being done at night under freeway closures commencing at 10pm. Work will also include a full ramp closure of the Katella onramp in **mid-April** beginning Friday April 17th at 10pm and ending on Monday April 27th at 5am (this could be subject to change and we will keep you updated).

Currently, the replacement and grinding of the existing roadway pavement on the NB 605 is underway and will continue for the next two weeks.

These improvements will help to reduce noise emanating from the roadway and provide a smoother road surface. Project construction is scheduled to be completed in September 2009.

In a construction zone, motorists are reminded to “***slow for the cone zone***” be alert, and proceed with caution.

For information updates about this project or any other freeway project in Orange County, contact the ORANGE COUNTY TRANSPORTATION HELPLINE at 1-800-724-0353, Caltrans Public Information Office at (949) 724-2341 or (949) 724-2644, or log on to Caltrans website at www.dot.ca.gov/dist12.
